Dear Dr. Chernov:

I have been troubled with canker sores for many years and I've tried numerous remedies recommended to me by pharmacists and dentists and not one was successful.

I tried the Joshua Solution in 4 applications over a 2 day period, it actually reduced the sore before it erupted and the pain was completely gone in days.

I now keep a bottle with me at all times, whether at work, at home or when traveling. You truly have a remarkable product and I hope that those who suffer from painful canker sores will try the Joshua Solution.

Thank you.

Sincerely,
