Dear Dr. Chernov,

This letter is to thank you for your "cold sore" solution.

I applied it to a recent face blemish, and the results were truly remarkable! Within one hour I was free of acute discomfort, and the swelling-inflammation clearly subsided within hours. I have had no problems since, and the healing was complete.

I will recommend your "cold sore" solution to any of my patients with great enthusiasm.

Sincerely,

Daniel Remen, M.D.

Director
