Phoenix, AZ 95018

I am writing to let you know how pleased I am with the Joshua Solution. I am 45 years old and have suffered with cold sores since I was in grade school. I have the school and family pictures to prove it! Last summer I had cold sores ongoing for weeks in my nose and on my lips. They were painful and very ugly to look at. I looked up "cold sores" on the Internet and came across your product. I had never purchased medicine over the Internet and was skeptical but desperate. I phoned the company just to ask a few questions and get a feel for the authenticity of the claims. I received my first bottle a few days later and applied the solution to the cold sores and they started improving overnight! I had these cold sores for weeks and within days they were all but gone. As soon as I feel that tingling sensation of one about to break out I start applying the solution and the cold sore never breaks through! My coworkers were also skeptical but our HR manager purchased two bottles for herself and her husband and to my knowledge hasn't had a problem since. I have recommended this product to family members and friends that also get cold sores. I just recently had a break out on my lips - the first in months. I have been ill recently and very sleepy during the day and did not get up and apply the medicine as soon as I should have. They were the worst cold sores I've had in a year. They were already blistered and spreading across my upper and lower lip. I started applying the solution on a Thursday and by Saturday evening they were in the last stages and starting to heal. I have tried vitamins, over the counter ointments, changing my diet, lowering my stress level - nothing made any difference. It seemed like once a month I would have an outbreak. Now, I carry this little bottle with me wherever I go. At the first tingle of a cold sore starting, I start applying this solution and now instead of dreading what my mouth will look like the next day I know for sure I will not break out. After years of pain, explaining to people what is wrong with my lips and all the jokes and teasing, I am thrilled to have a "solution" to my problem! Thanks again and I will continue to recommend your product to others.

Sincerely,

Karen Dairy

P.S. Thanks for putting me on your prayer list. I firmly believe that God's hand is on my life!
