I'd love to put into writing a testament to the Doctor's Solution! I have experienced cold sores my whole life - and I do not get the small graceful ones, instead I am blessed with the large eye-sores. I have always been allergic to all medicated products and had no ability to quicken the process or potentially *avoid* the sore altogether until I discovered the doctor's solution. It's a miracle product!!! When I feel the dreaded 'tingle' or have a suspicion of an outbreak, I immediately use the product and quite often the sore does not even appear! If it does, use of the product increases the healing time dramatically. I can honestly say, I 'won't leave home without it.'

I have been using the Doctor's Solution for many years now and will continue to do so as I have found it so reliable. I highly recommend Doctor's Solution to those of you who are having allergic struggles to medication, or those of you seeking a more natural way to cope. Thank you Doctor's Solution!
